“ *I remember how me and Sto would just walk around some days with nothing to do and just talk and plan out all the businesses and stuff he wanted to do. He was the first person to ride out with me when I got my car, we were supposed to go job hunting and we had so much fun just being out that we never made it. He was an all around great person and the type of friend that everyone wants around them. He kept a smile on his face and made sure he put one on anybody else's face who came in his presence. I'm really gonna miss you bro. Your memory will never die or be forgotten. We all loved and cared about you no matter what you were going through.*
