“ My most memorable thoughts are when he use to always come to my house with Larry my boyfriend and his bestfriend. We would always laugh and I could tell him about anything and he was the most greatest brothers in the world. Now my heart is gone because he took it with. Love yhu brother....R.I.P. “ First time I met this young man he had a camera and I told him, "hold up, lemme record a drop for gunnah right quick." It's amazing how the smallest moments in life end up being the major ones you reflect on. Thank you blayze for more than one reason...you help mold the outlook of a promising artist and a great individual, and you did what you loved and loved to do it. See you on the otherside homie
