“ I worked with Bobbie for several years at DOT, and one thing you can definitely say is, she KNEW what she was talking about and could prove it all. If you needed something tested, or wanted to see if something could be "broken" she was your "go to" woman, or if you ever wanted the history of how anything came about, she was a walking encyclopedia of DOT operations. I can hear her saying "let me tell ya something" and she never disappointed. She was one of the most diligent and knowledgeable employees I ever worked with and in spite of her sometimes rough "exterior" she had a heart of GOLD. So sorry for your loss, she deserved a longer retirement, but I also know she never wanted to be a burden to anyone. I also know she loved her family (and her strays) immensely, even when you were driving her crazy! :) The world will not be quite the same without her in it, but I am glad I got to know her along the way.
