“ *Everyday I wake up
Realizing that you are gone
Reality keeps forcing me
To accept that you are done*

*Finished with all the chaos
This earthly world can bring
Through with all the pain and problems
And all those simple things*

*Am I so selfish to wish that you
Were here alive on earth?
Am I wrong to wish you back
Just so I won't hurt?*

*All the things I never said
Strong feelings I never shared
I took your love for granted and put you off
Because I just knew you would always be there*

*I pushed you away because I needed space
To be young, live the college life, and grow
But I was gonna get back right with you
I swear
But now you'll never know*

*You left behind family and friends
Lovers and colleagues the same
I still can't believe those boys that day
That bullet
It must've had your name*

*But now you're gone
They took your life
I'm sure for no worthy cause
Am I wrong for hoping*

*They can't sleep at night
For motivating this unjust loss?*

*But it is me who lies awake
At night thinking about you
What ifs and why nots run through my mind
Sometimes I hate that I fell in love with you*

*No matter how hard I cry or pray
I know you're not coming back to me
I'll never forget the around-the-face kisses
Your love for me ran deep*

*I thank God everyday for granting me
Your presence on Saturday before you died
I hadn't seen you in months
And there you were, that day, to my surprise*

*I can only wait until the day
That we'll meet again
I know that you will still be you
Funny, crazy, a friend*

*You were never perfect
You weren't an angel by far
But damn boy you were you
And even before you died
I knew I would never be able
To replace you*

*Your smile, your eyes
Your laughter, your words
Are embedded in my mind
And forever you'll live in my heart and dreams
Until the end of my life*
