“ What moves through us is a silence, a quiet sadness, a longing for one more day, one more word, one more touch. We may not understand why you left this earth so soon, or why you left before we were ready to say goodbye, but little by little, we began to remember not just that you died, but that you lived, and that your life gives us memories too beautiful to forget.

Toowanna WE WILL ALWAYS MISS AND LOVE YOU.

“ I remember asking you where you got those little feet! I did not get a chance to know you well but I was fortunate enough to taste you baking. You had plans to bake and I remembered us talking about selling you goods. I remember you talking about life and the contribution you were making in the health field. Your love for your niece Xandria was unparalleled. You loved her more than life. I find myself being upset that you were taken from us so quickly! My human mind cannot comprehend. I feel like I ask God why and do not wait for an answer. We are missing you each and everyday. But we also must reach out to God in faith and prayer and understand why! Sleep sweet Toowanna. This world is not our home and you made your impressions when you walked through. We love you!!!

My best friend left this world 2 days prior my birthday she would always text or call me even though we were in different countries we would always find some means of communication to stay in touch. Last year we spent a few days together just laughing and catching up, for the first time she got to see the beach in Far Rockaway while talking what she was planning for her birthday she told me of her illness we prayed and reassured ourselves that we need to trust God when we cannot trace him, We had so many plans for this year but God knows best i will miss you i have cried a thousand times since ...we were suppose to be each other first bridesmaid sleep in peace my friend
